

# THE GLOBAL FUGITIVE EMISSIONS SOLUTION

API 622/624 • ISO 15848 • TAT

Fewer emissions. Cleaner world. Brighter tomorrow. That's what you get with **BONNEY FORGE ECO-SEAL®**. With Ultra-Low Emissions verified by third party testing to less than 10 ppm per API 622, as well as providing lower leakage rates than ISO 15848-1 class BH, there is simply no better packing available. The most important fact is **BONNEY FORGE ECO-SEAL®** is standard with all Bonney Forge valves, ALWAYS! So you can rest assured your facility is using industry leading fugitive emissions packing. Recognized around the world for superior performance, that's **BONNEY FORGE ECO-SEAL®**.
